

**GLOBAL AGRO
COMMODITIES**
MAKING A DIFFERENCE

From Farm to World Market Program

All managed under **'One Umbrella of Own Private Network'**

*As a globally responsible company, we strive to improve the quality of life through various initiatives. Our **'From Farm to World Market Program'** is one such initiative. Through this program we aim to enable the development of a **'robust supply chain'** and link our **grower communities directly to our consumers**. At **Global Agro Commodities**, we are investing in establishing an efficient supply chain management operation to help make it efficient, **thereby maximizing value for farmers and consumers**.*

Benefits to Growers

- ▶ **Higher Price** than what they get from the market.
- ▶ **Higher Price Incentive** for the quality of the product grower delivers to us based on customer requirements.
- ▶ **Expert Advice on better crop planning.**
- ▶ **Expert Advice on market trend.**
- ▶ **Efficient Crop Selling Calendar Management** aimed at catching early and late seasons for better prices.
- ▶ Our grower has **'No Payment Risk'** as we are known for timely payment.
- ▶ **Time Saving** due to quick decisions we take knowing your commitment to growing and dedicated time demand.
- ▶ **Easy Dealing** because we make things simple in everything we do.
- ▶ **Access to Large Consumer Market** due to our front-end operation and consolidation of supply to 35 countries, with 240 locations reach.
- ▶ **Transparent Execution** due to our years of experience and managing different scale of operation.
- ▶ **Flexibility** to bring load from farm on your clock.
- ▶ **Traceability** : We are the only marketer today in our industry who take your high quality pulse crop to consumers under our **"From Farm to World Market Program"** enabling you to know and track how, where and when your product is selling.
